JUSTINA

Produse

COD	Nume	Lungime (include partile laterale) [mm]	Greutate `kg	Capacitate [dm³]	Zona de racire pe raft [m²]
JS100	JUSTYNA 2.0	1990	210	290	1,45
JS101	JUSTYNA 2.5	2610	260	362	1,81

Fisa tehnica

Option	2.5	
Display window area [m²]	1,81	
Temperature range [°C]	-15/-24	
Available capacity [dm³]	362	
Length (sides included) [mm]	2610	
Refrigeration medium	R507	
Rated voltage [V]	230/50Hz	
Depth [mm]	1030	
Rated power (evaporation heater) [W]	3000	
Rated power [W]	1554	
Height [mm]	960+/-10	
Evaporation temperature To [°C]	-30	
Rated power of lighting [W]	116	
Unit weight [kg]	260	
Cooling power [W]	1234	
Maximum load (unit) [kg]	375	
Electricity consumption [kWh/24h]	24	

Optiuni standard

- compressor (built in)
- dynamic cooling
- external housing of stainless zinc plated plate coated with polyester, color white
- ecological polyurethane foam insulation
- front bumper - color selection possible
- display area (zinc and polyester coated sheet - white)
- chamber interior (zinc sheet coated in polyester, white)
- white fluorescent lamp
- ABS sides - colour selection possible
- adjustable legs
- auto defrost
- automatic condenser evaporation
- electronic controller with digital temperature gauge
